

Short courses Module 12. – Collaborative Working

from The Academy of Constructing Excellence's Diploma in Managerial Excellence in Construction & Engineering (NZQA Lvl. 6 DipMEEC).

Course Description

The module provides an introduction to the basic principles of Collaborative Working and their application to the management process within corporate enterprises. Topics covered include:

- Principles of Integration and Collaborative Working
- Managing an Integrated Team
- Managing Integrated Operations,
- New Zealand “Boom Bust Case” Study – and industry review.

Learning Outcomes

On completion of the module, participants will be able to:

- demonstrate a knowledge of the core body of knowledge relating to Collaborative Working and application to the management process within corporate enterprises,
- manage and integrated team,
- manage integrated operation,
- take away a grounding in the “Boom Bust” cycle of construction and it’s effects on construction efficiency for the NZ economy and construction companies.

Tutors

Neil Allan

Dr Neil Allan is a Visiting Lecturer, University of Bath and also teaches at the University of Canterbury. He has over 20 years experience working in the construction industry in the UK and overseas and 10 years in teaching, researching and consulting in academia – both in New Zealand and the UK. His specialist interests include Strategic Risks, Systems Thinking, Entrepreneurship and Construction Management.

Industry Leader Guest Lecture

Thursday - Peter Millar – MD, Tonkin + Taylor

Peter is responsible for operations in NZ and overseas, with a total staff of over 500. He has provided management leadership for many major infrastructure and building projects throughout Australasia and the South East Asia regions. Peter will provide a review and insight in to modern procurement in NZ – especially delivering effective Alliancing

Friday - Hugh Morrison – CEO, Arrow International

“We will be in business for over 100 years. This goal reminds us that we will see out the full life of the projects we build and that the relationships we develop will run well beyond a single project.” With that in mind Hugh will speak around his CEO role of one of NZ’s the most innovative construction companies. He will also review his experience of developing collaborative working within a competitive market place.
