

**Construction  
Clients' Group**  
CONSTRUCTING EXCELLENCE

# Prospectus & Membership

## What is the Construction Clients' Group?

The Construction Clients' Group (CCG) is a membership network committed to influencing and improving business performance in all sectors of the construction industry.

Being independent and client-led, the CCG focuses on best practice, innovation and knowledge sharing through events, guest speakers and networking opportunities.

Now in its second decade, the CCG has regional centres in Auckland, Wellington, Christchurch and Queenstown. The driving goal is to lift client performance by promoting a learning and sharing environment for all organisations across the construction supply chain through a better construction outcome.

The CCG provides an independent, collective voice for public and private sector clients with the construction supply chain, government and other key stakeholder groups.

## Who is it for?

The CCG supports both private and public (central and local government) sector customers of construction, as well as organisations throughout the delivery supply chain. We recognise that our members need to work collaboratively to deliver more predictable and successful project outcomes. The CCG also welcomes organisations from across the supply side of the construction industry to enable client/industry interaction and to encourage improved industry integration and enhanced collaborative working with construction clients.

## Benefits of membership

- ✓ Free admission to over 30 high calibre events in Auckland, Wellington, Christchurch and Queenstown, attended by senior members of the industry
- ✓ Expand your personal networking and visibility in the sector
- ✓ Learn about best value procurement, collaborative working, innovation and best practice through events and guest speakers
- ✓ Access the CCG members-only library of reports, best-practice guides, and other evidence-based information that the whole supply chain can use
- ✓ Be part of the CCG's unique position that spans industry, clients, government and the research community
- ✓ Talk to government and regulators to influence future policy
- ✓ Build common ground across the construction industry's vertical and horizontal sectors
- ✓ Help improve industry performance in the built environment sector
