

Short Course Module - AUCKLAND

LAST PLANNER & LEAN CONSTRUCTION

Thursday 28th & Friday 29th November 2013

The Academy of Constructing Excellence

Key Factors	Details
Module Name	Last Planner, Lean Construction, & Continuous Collaborative Improvement
Level	Level 6 (NZQA Framework)
Where	NZIM, 4th Flr, Phillips Fox Tower, 209 Queen St, AUCKLAND
Brief Description of Module Content	The module provides a hands-on simulation of the Lean tool Last Planner, following an introduction to the key principles of Lean Construction and Collaborative Continuous Improvement and their application to projects and organisations. Programmes are crashed, waste removed and projects delivered successfully within collaborative teams.
Aims and Objectives	The module provides a practical up-skilling in the tool, Last Planner and gives an introduction to the principles of Lean Construction.
Learning Outcomes	On completion of the module, participants will be able to: <ul style="list-style-type: none"> • Demonstrate a knowledge of the core body of knowledge relating to Lean Construction, Last Planner and Collaborative Improvement and their application • Apply Lean principles to construction projects and organisations • Implement Last Planner • Understand and apply principles of collaborative continuous improvement

Lecturers	Amanda Warren, Constructing Excellence NZ. Amanda is a leading expert in Lean Construction and has played a key role in establishing Last Planner across New Zealand. Some examples of projects that have successfully used Last Planner are Manukau Harbour Crossing, Dowse to Petone, Victoria Park Tunnel plus many more. Naylor Love and Arrow International use Last Planner regularly on their building projects. Hunua 4 and the Kiwirail Auckland Electrification Project have recently implemented Last planner.
