HOT TOPIC BREAKFAST NETWORKING EVENT

**First review of the latest UK national construction sector report –
"Never Waste a Good Crisis"**

Morning Sound Bite with Tim Warren – Construction Clients' Group

What the UK construction sector has learnt from 10 years of change and the hard lessons for New Zealand:

- Why does construction still fail to perform?
- What are the missing links to make changes happen?
- What are the initiatives that work?
- What can New Zealand offer as Best Practise and what can we learn?
- What are the next steps?

There are key lessons to be learned by NZ's construction sector - Find out from one of the original Rethinking Construction team contributors and construction sector expert – Tim Warren. He will also draw on a strong grasp of business drivers and the present economic realities.

Join us for this **complimentary** Sound Bite on the 8th December from 7:30-8:45 am. Finger food breakfast and refreshments followed by a short informal presentation.
