Australian Workforce and Productivity Agency

Resources Sector Skill Needs
 Report 2012

The construction industry in British Columbia has been a steady source of new jobs for much of the last decade and this will continue across the 2013 *Construction Looking Forward* scenario¹ period. While gains in non-residential construction (since 2009) drove industry employment to record levels in 2012, a pause in engineering projects in 2012 was balanced by continuing growth in residential and commercial work. Job gains will continue in most sectors to 2016.

during the 2008–2009 recession. Starts regain their past

Key features of these workforce roadmaps

Industry led with Government support

Demand driven analysis based on key sector drivers

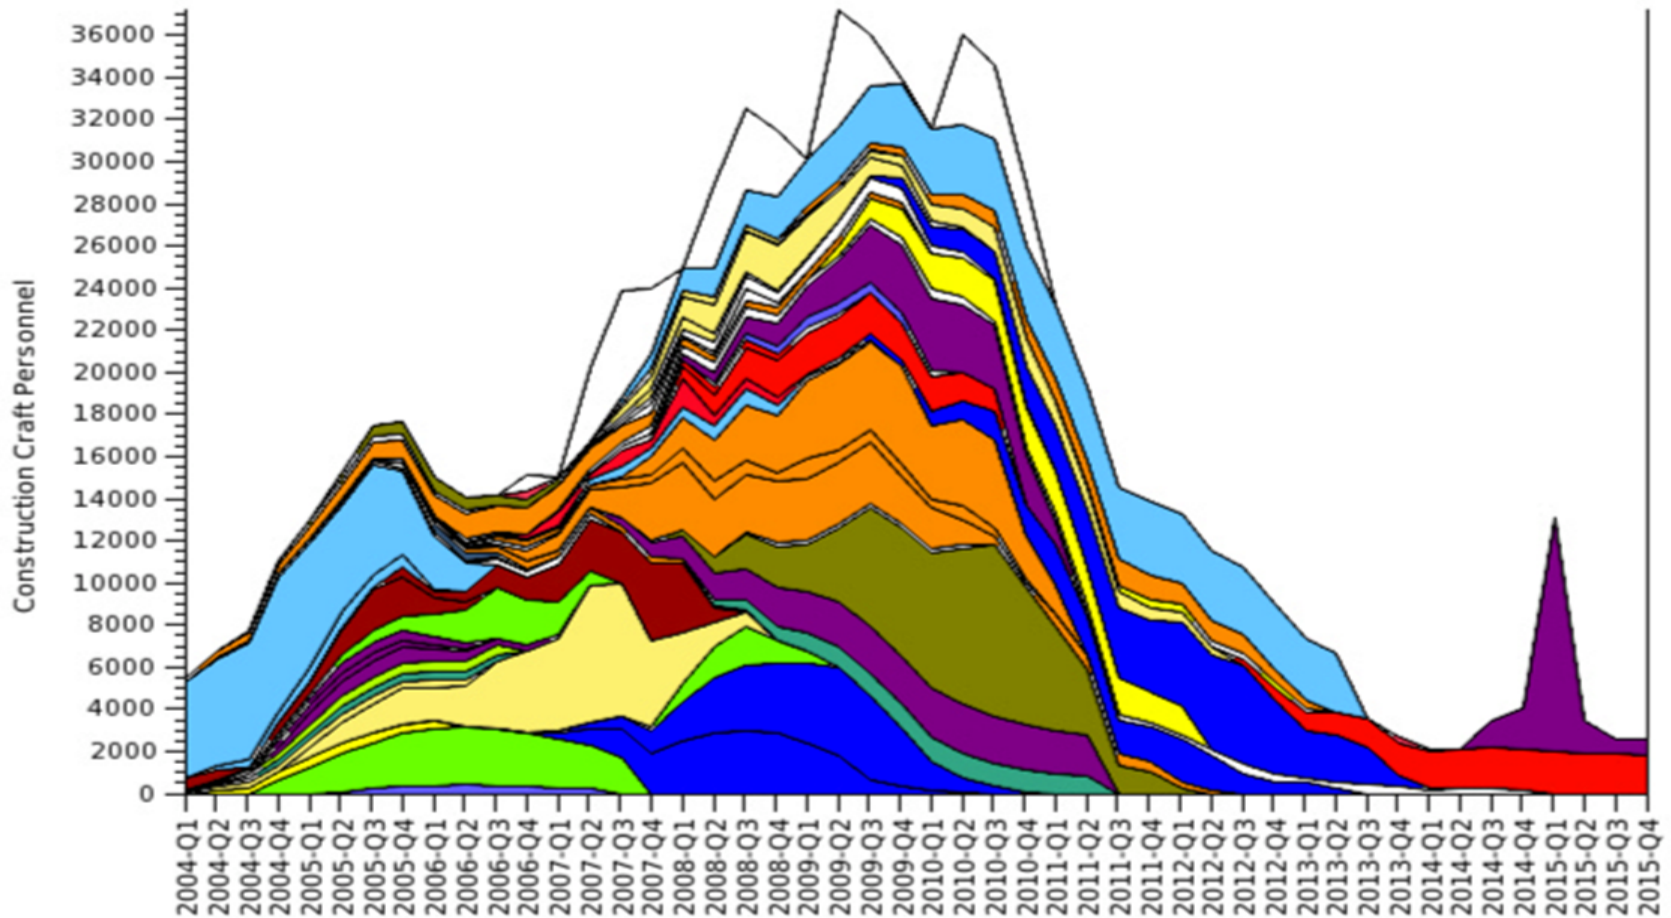

Dynamic, looks forward (not snapshot)

Remain current and robust as conditions change

A rich picture of workforce demand

- **Timing** of skills supply
- Key workforce **priorities** identified by industry in a city/region.

Inform

- alignment of training and education **investment decisions**

Barangaroo South a showcase for workforce development

One of the largest single construction projects in Sydney's history – Barangaroo South in the central business district – has been hailed as a showcase for the workforce development programs and support networks coordinated by Australian Government Skills Connect.

In August, the Minister for Skills, Senator Chris Evans, announced a \$7 million Australian Government's investment in Barangaroo South in partnership with project manager Lend Lease. The funding will provide training for around 2,600 initial participants to satisfy the project's unique business, industry and workforce needs. A total of 500 Australian Apprentices will receive mentoring support under the [Australian Apprenticeships Mentoring program](#).

Auckland Construction & Infrastructure Industry

Workforce Roadmap Forum
22 May 2013

Programme

8.30am Registration

9.00am Mihi
Kukupa Tirikatene, Ngai Tahu, Kaiakau of MIT
Welcome and Opening by Sir Ron Carter
Opening Address
The Honourable Steven Joyce

9.50am Perspectives session
Auckland City
Harvey Brookes, Manager Economic Development, Auckland Council
Industry and Investors
Greg Pritchard, General Manager, Fletcher Construction Building+ Interiors

10.15am Morning tea

10.30am Perspectives session continues
Maori and Pasifika
Hemi te Hemi, Project Manager He Toki te Rika and Daniel Fuemana, HoD Department of Building Technology, Unitec
International best practice
Heather Stonyer, Director Campus Development, Unitec
Vocational education and training
Ruma Karaitiana, CE, BCITO speaking on behalf of the hosts

11.15am Workshop session

12.40pm Summary and Close of Forum
Light lunch available

- Hosted by: BCITO, Skills, MIT, Infratrain & Unitec
- 80 attendees
- 50% Auckland C&I Industry
- Perspectives from:
 - Auckland City
 - Industry & Investors
 - Maori & Pasifika
 - International Best Practice
 - Vocational Education & Training
- Workshop discussions & feedback session
