

The New Zealand Construction Clients Group

**Construction
Clients' Group**
CONSTRUCTING EXCELLENCE

Note

***New times for 2010,
earlier start and finish!***

Meeting No. 17

when: **Wednesday 27th January 2010, 08.30 Hrs. to 12.30 Hrs.**

where: **Site Safe, Level 5, Anvil House 138-140 Wakefield Street, Wellington**

theme: **Health, Safety and Environment – Client implications of current Best Practise**

Construction client responsibilities and opportunities around Health, Safety and the Environment are high on the agenda at the moment. Firstly recent court action has thrown a Principal's responsibility clearly into focus as being a prime business driver. Secondly the value for money debate around the long term performance of green buildings is current, pertinent and also is at the heart of client drivers.

08.30am Welcome & Introduction, CCG Update by Chair - Joe Hollander.

08.45am Host Introduction - James Mead, Programme Manager - Site Safe.

09.00am "State of the Nation" – Garry Menhennet, CEO - Site Safe.

Garry will provide an overview on the state of the industry, its views on common training systems and other current drivers in the construction safety sector, along with where Site Safe sees itself in this mix from now and into the future.

Results, Tools and Techniques – innovations in H&S audits and benchmarking.

A review of the impact of the Site Safe PDA audit tool along with the associated Benchmarking and Charter Accreditation system. A progress update will be given for the review, industry audit and benchmarking results.

10.00am Morning Tea.

10.20am Launch "H&S Questionnaire and Evaluation Tool"

Jon Visser, Manager, Industry Performance – Wellington City Council.

As it is a "reasonably practicable step" to evaluate a contractor's understanding and management of health and safety, such evaluations can be carried out using this tool. Jon will take us through the strategy, implications and advantages of launching a regional contractor health & safety evaluation tool for contract pre-qualification.

11.00am RMA reforms & Infrastructure rating tools – Update for Clients

Chris Wood – Senior Advisor MfE.

Chris will talk about Phase Two of the Resource Management reforms (RMII), the possible development of a rating tool for infrastructure and a new tool (Build360) about to be piloted by central govt agencies

11.30pm Discussion.

12.00pm Close and light buffet lunch.

Sharing, Learning, Innovating, Together'
