# Construction Clients Group Annual Members Event Responding to a Major Disaster

Paul Green
Manager Planning and Intelligence / Operations
Auckland CDEM

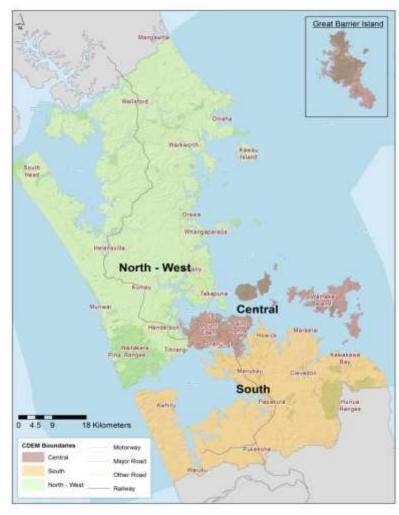

# Civil Defence and Emergency

# Management

- New Auckland CDEM Group established Nov 2010
- Auckland Council structure provides strong support and commitment to Civil Defence
- Councils 'go to' department in times of emergency or crisis

#### Major Disaster Response

Whole of Department activation
Plus Auckland Council Communications and GIS
Departments
Plus 350 trained and engaged ACES
Plus the resources at Councils disposal to support response and recovery efforts

## Auckland CDEM Key Strategies

- Understand, communicate, and where practical, reduce the risk of hazardous impacts to Auckland
- Build individual, community and business resilience against the disruption caused by the impact of a hazard
- Early warning or forecast of threats
- Public Alerting of imminent threats
- Maintain 24/7 CDEM Operational Readiness
- Respond and Recover from emergencies

#### **Auckland CDEM Activations**

#### Exercises (x5)

 "Prove it" / National tsunami "Tangaroa" / Christmas readiness (x2) / International tsunami "Pacific Wave"

#### Support (x3)

September Christchurch Earthquake / Drought / Rena Grounding

#### **Crisis Management (x5)**

 Heritage "Palace Hotel" demolition / Watercare Gas explosion / Rugby World Cup / Maui Gas pipeline disruption / Three Kings Building

#### **ECC Activations (x11)**

- Cyclones (x2)
- February Christchurch Earthquake
- Tsunami (x3) Japan & Kermadec (x2)
- Tornados (x2) Albany & Avondale
- Thunderstorm Glen Eden

# Likelihood of an occurrence in a 50 year period

Tornado 100 %

Tsunami 49 %

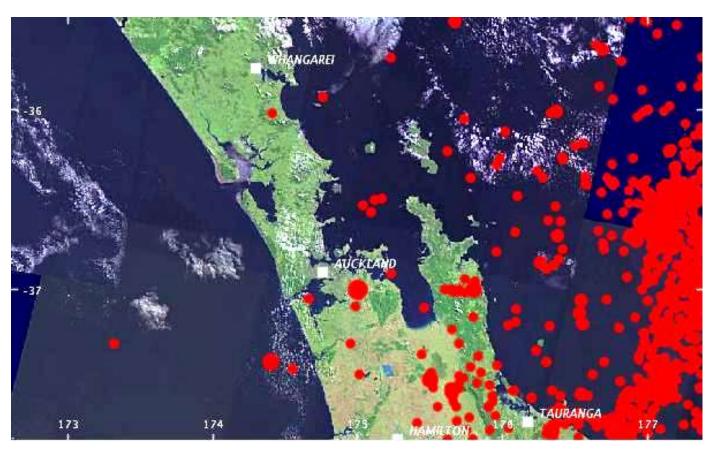

Earthquake (MM VII) 7 %

Volcanic eruption 5 %

## Earthquakes over the last 200 yrs

- Magnitude less than 3.9
- Magnitude between 4 and 4.9
- Magnitude between 5 and 5.9
- Magnitude between 6 and 6.9
- Magnitude greater than 7

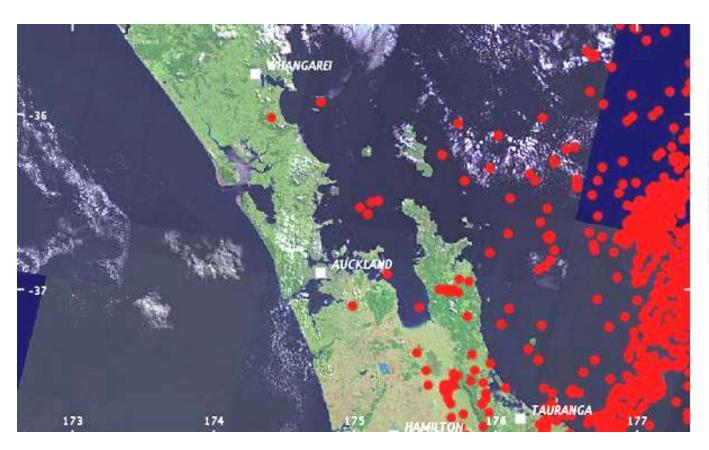

www.geonet.org.nz

## Earthquakes over last 50 years

- Magnitude less than 3.9
- Magnitude between 4 and 4.9
- Magnitude between 5 and 5.9
- Magnitude between 6 and 6.9
- Magnitude greater than 7

# EQ Prone Buildings — Auckland

 Auckland Council Earthquake-Prone, Dangerous and Insanitary Building Policy 2011-2016 adopted November 2011 and covers the entire Auckland Region.

 1400 Initial Evaluation Procedure (IEP) assessments undertaken.

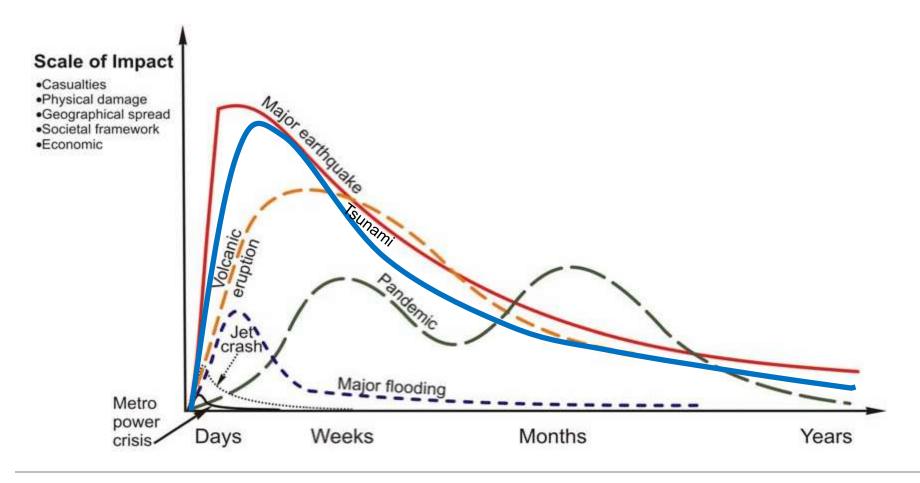

Invercargill 2.8

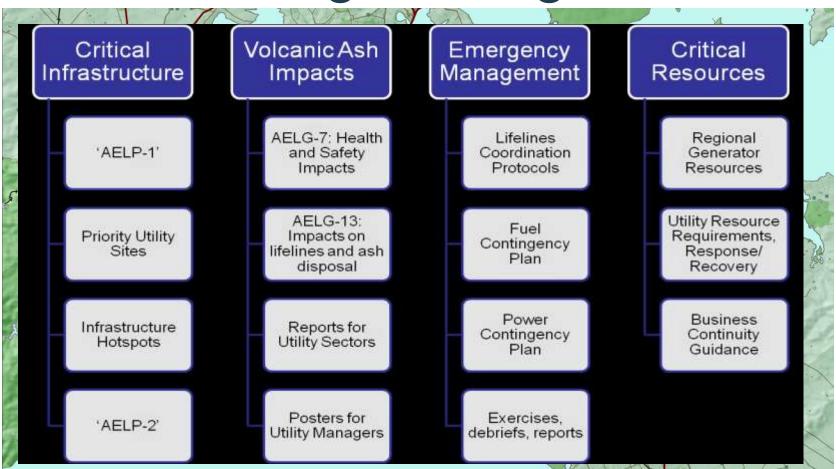

### Duration of Effects of Emergencies

# Auckland Engineering Lifelines

Many lessons identified over a short space of time

Auckland has absorbed this knowledge and has integrated arising actions into the work programme

- Importance of developing and maintaining a rapid and sustained common operating picture
- Need to manage / analyse / understand and give meaning to large amounts of information
- Co-ordination and integration of resources from across NZ
- Importance of resilient communities and strong local leadership

- Importance of consistent training within the sector and exercising with external partners
- Daily operational processes "Shift Handover" and "Information Transfer"
- Importance of principle of one lead Controller
- Importance of effective relationships and role clarification

- Coordinated planning across all sections and agencies
- Strong organisational resilience
- Importance of Exercises and implementation of learnings
- Importance of the Logistics function
- Value of appropriate alternate ECC venues

### Joined up 'doing' - Auckland

- Planning for enlarged Emergency Coordination Centres across the region
- Mass Evacuation Planning for Auckland

Rapid Intel gathering and relevant situation reporting

## Enlarged and flexible ECCs

 We have developed a flexible ECC close to Mayor/CEO

 Identified enlarged alternate venues to accommodate governance and ECC activities in different locations across Auckland

Pre existing arrangements with venue management and governance

## **Evacuation Planning**

- Generation 2 Plan is under development
- Auckland Civil Defence responsible for facilitating and coordinating the planning process
- Engaging and effective relationships through the planning stages that enable effective liaison and coordination with agencies during response
- Integrated with Neighbourhood response planning

# Rapid intel gathering and intel feeds

- Develop a common operating picture as rapidly as possible by as many means as possible
- Maintain reconnaissance proportionate to the scale of the event
- Timely and relevant information to the right agencies / organisations / civic leaders and community
- Harness technology / social media / information aggregation systems
