

Construction Clients' Group 2016 Benchmarking Report

Do you know how well your projects perform?

The 2016 National Construction Benchmarking Report allows you to discover where your projects performance stand and use this knowledge to improve.

Join the industry in measuring the construction sector's performance as a whole and learn how to specifically measure your business's individual project performance. Based on a straight forward data set, the report benchmarks your projects performance – time, cost, quality, client satisfaction and safety against NZ and UK' current and past performance.

From the resulting detailed performance picture, you can use this knowledge to transform performance within the current rapidly changing market.

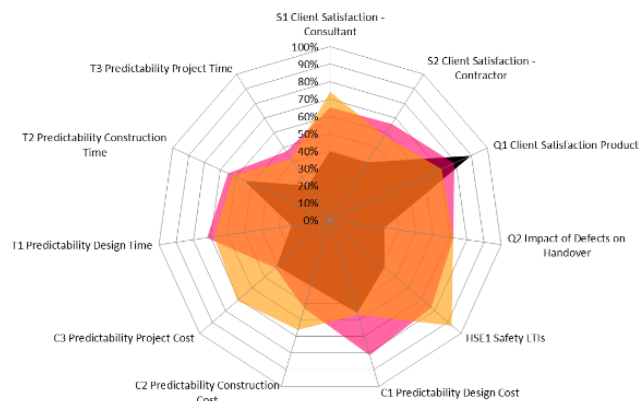

- For the supply side – a focus on maintaining sustainable profitability and resourcing efficiency.
- For Clients - an ability to direct efforts to better manage time and costs inside budgets
- For project teams - finding common areas to strengthen working relationships

2016 National Benchmarking Report

Submitting data is a straight forward process whether for one project or multiple projects. Data collection is open now and closes 30 September 2016. The report will be published in November 2016.

All data is anonymous, kept confidential and securely stored.

Construction Clients' Group 2016 Benchmarking Report

Outcomes for those submitting data

Simple and quick to set up for projects in client or supply side organisations, this will lead to better metrics and performance reporting for your projects. Improved business reporting is then a quick step change.

2016 is the sixth year of performance data collection for the New Zealand construction industry. You can contribute to this 'free to market' tool for all the industry.

Next Steps

Learn more:

1. Register your interest
2. Submit data for projects completed in 2015 by 30 September 2016.

For Fast adopters and mature businesses

We are also introducing the **Benchmarking Network** – your individual **project performance Report** – a new initiative presented by the CCG. To learn more [register your interest below.](#)
