**Theme: Developing a Client Brief to Deliver Value - Pitfalls and Best Practice**

Called for by Stakeholders, dissected by the supply team and analysed in the media in the aftermath of “suspected” poor performance – the Clients’ Brief is the key to establishing, articulating and disseminating the Vision for a project and, most importantly the Value the Client sees in the project and expectations for the supply team. In short a good Client Brief and good client leadership is the base line for project success.
