

Short Course Modules

Benchmarking, Performance Measurement, Continuous Improvement & Managing Change – Christchurch, Commodore Hotel, 20th, 21st June 2013

The Academy of Constructing Excellence

Key Factors	Details
Module Name	Benchmarking, Performance Measurement, Continuous Improvement and Managing Change
Level	Level 6 (NZQA Framework) (5 credits if assessed)
Where	Copthorne Hotel Commodore, Christchurch Airport
Brief Description of Module Content	<p>Students will gain an understanding of how to develop performance measures (KPIs) for projects and businesses. They will learn how to implement them across the organisation.</p> <p>In addition, the course will look at how to specifically benchmark construction projects using the CCG NZ International KPIs, and how to implement them as an ongoing business tool.</p> <p>Students will be shown how to design a performance improvement system using concepts such as Kaizen, as a basis for a step by step approach to setting stretch targets and achieving them.</p> <p>The 'Managing Change' module helps students to understand the emotional journey that people travel during change, enhancing the chances for success of any improvement initiative.</p>
Aims and Objectives	Develop an understanding of the power and usage of performance measurement and benchmarking for both organisational and project improvement opportunities. Implement with a confident understanding of people and their reactions to change.

Learning Outcomes	<p>On completion of the module, participants will be able to:</p> <ul style="list-style-type: none"> • Demonstrate an understanding of performance measurement as an improvement tool • Be able to design performance measures • Be able to design and implement a performance measurement system • Demonstrate understanding of the linkage of organisation performance measures to organisation strategy • Be able to lead the design and implementation of a performance improvement action group
