Auckland's Procurement Programme

PROACTIVE ENGAGEMENT OF AUCKLAND'S BUILDING AND CONSTRUCTION INDUSTRY

Reducing Boom Bust, Raising Productivity and Increasing Value

Overview

Auckland Procurement Programme is a part of MBIE's Productivity Partnership. With its 20+ clients the Auckland Procurement Forum is the heart of the Programme, with a three to five year plan to drive for more efficient procurement and project delivery working practises.

The two events late last year set the stage for today by providing a clear appetite and mandate for change – therefore today we will be discussing how both clients and the supply side together can move forward. We will also be looking at the next challenges facing the industry and how we should respond.
