

Short Course Module - AUCKLAND

Programming for Commercial and Risk Management

Wednesday 16th July 2014

The Academy of Constructing Excellence

Key Factors	Details
Module Name	Programming for Commercial and Risk Management
Where	NZIM, 4th Flr, Phillips Fox Tower, 209 Queen St, AUCKLAND
Brief Description of Module Content	<p>This is a programming course with a difference. The seminar will start by covering the importance of programming and what the requirements are contractually for NZS3910 and NEC3.</p> <p>With this in mind the focus will be on how to compile a programme which at the same time enables the effective commercial management of a project. Effective commercial management helps to:</p> <ul style="list-style-type: none"> objectively assess the cost impact of change, avoid delays, avoid abortive work, avoid disputes, mitigate cost escalations, increase effective communication and collaboration across the supply chain, and increase the chances of delivering a successful project. <p>The course is aimed at contractors, consultants and clients. Whilst a programme is usually produced by the contractor or consultant, clients need to be aware of what ought to be produced and can enhance their programming requirements in their requirements.</p> <p>No software is required for the interactive seminar, but it will be required for the post workshop case study and 1 on 1 feedback session.</p>
Learning Outcomes	<p>On completion of the module, participants will be able to:</p> <ul style="list-style-type: none"> Understand the importance of good programming. Understand the programme requirements for various forms of contract. Produce a programme that can be used as a commercial

	<p>management tool for the project.</p> <ul style="list-style-type: none"> Revise and update a programme. Apply the learnings to a case study. Receive feedback on the case study.
Lecturers	<p>Matthew Freeman, Constructing Excellence NZ.</p> <p>With a strong Project Management background, Matt is a Management Consultant working in areas where he can add most value. His main focus is the tactical phase of project and service delivery and the incorporation of international best practice, where it applies. He works across all sectors of the construction industry and is a passionate advocate for building collaborative working environments, and has procured and/or advised on many NEC3 contracts in New Zealand and the UK, as well as PPP's in the UK.</p>
Time Req.	1 day plus a take away case study to work on and feedback session.
