# The Construction Clients' Group Queenstown

**Construction  
Clients' Group**  
CONSTRUCTING EXCELLENCE

## What is this all about?

### What is the Construction Clients' Group?

The Construction Clients' Group (CCG) is an independent membership organisation committed to improving the business performance of our members by focusing on innovation, best practice and knowledge sharing in enhanced collaborative working and supply chain integration.

Now in our 12th year, we have regional centres in Auckland, Wellington and Christchurch. The CCG promotes a learning and sharing environment for all organisations across the construction supply chain in business performance improvement through a better construction outcome.

### Why Queenstown?

With 12 years experience supporting our Client Members and their supply chains we have always been at the forefront of the industry – where it matters and when it matters – through the booms and the busts – and we are looking to keep adapting our engagement with members we get to both the growth and problem areas for the construction market.

### Why now?

Whilst never trying to be 'another player in the field' there seem to be issues and opportunities in the town and across the wider Queenstown region - issues that the CCG and its Members can support each other in addressing and learning from.

This meeting is an opportunity for us to bring regional leaders, local representatives of national organisations and new supply side and client players to engage to improve the efficiency of construction and asset ownership.
