

# ICE NZ Technical Presentation

## Corrosion Management and Service Life Extension of SH16

The talk will cover all the existing corrosion issues and how, through the use of innovative technology (applied for the 1st time in New Zealand), the bridges have been given a 50 year life extension.

About the Speaker- Christian Christodoulou is a Fellow of the ICE and AECOM's leading expert in the field of corrosion asset management, repair and refurbishment and durability design of reinforced concrete structures with international experience across 4 continents.

He is based in the UK and is the Bridges District Leader for Midlands and South West.
