

WorksafeNZ Safety by Design Focus Groups

WorksafeNZ is hosting focus groups on safety in design in May with an aim to collaborate on intervention strategies. As a recent attendee of the CCG Safety in Design Industry Steering Group forum, we would like to extend this offer to you to participate.

We strongly encourage you to attend and share your great ideas. Attached is the “final draft” of WorksafeNZ’s Good Guidance for Health and Safety by Design document for your reference.

Obviously, being invited to these focus groups and having an early copy of the proposed good guidance draft is a privilege extended to you as a result of your participation in the CCG Forums. We trust you will respect this confidence and opportunity.

The next Forum will be held on May 31 and will have updates from WorksafeNZ as well as presentations on BIM in safety in design (Glenn Jowett) and a case study from Christchurch City Council (Mark Humphrey). Please contact Wendi Croft, chair of the CCG Safety in Design Industry Steering Group with any forum questions.

The dates, times and locations are:

Auckland	17 th May 2018	9 am – 12 pm	Level 9, 280 Queen Street, City
Wellington	18 th May 2018	9 am – 12 pm	Level 6, 86 Customhouse Quay
