“Clients co-ordinating Forward Work Programmes for Success”

Sharing Clients' near-term, co-ordinated spends with the market

Developing Clients' tactical integrated Forward Work Programme

The CCG Steering Group has seen the advantage of co-ordinated Forward Work Programmes, both for the supply-side and their own tactical and strategic efficiencies, but that one all-encompassing report is too difficult to deliver. We still need to answer these questions:

“We have \$50bn of confirmed funding in Auckland.....

- Where is it going to go?
- How do we manage our own future work-load plans with this in mind?
- Capacity and the supply-chain – can they perform?
- Can we do it differently/how can we do it differently?

Welcome to a strategic discussion – for clients only and lead by our CCG Chair.”

Agenda

4:30 p.m. Welcome and Introduction
Ian Wheeler – CCG Chair

4:40 p.m. The Forward Work Programme

Providing data for the supply-side:

How can we put our spend data in the public domain and short-term aggregated expenditure to allow for good forward planning – Year 0 to year 2?

Discussion led by the CCG North Island Chair – Ian Wheeler
