Thursday 12 March 2020

Venue: Harrison Grierson Offices, Level 4, 96 St Georges Bay Road, Parnell, Auckland

Timings: Doors Open 5.30pm, AGM and Presentation starts from 6.00pm

Institution of Civil Engineers New Zealand

E: transtasman@ice.org.uk

INVITATION – 12 March 2020

Please join the ICE NZ Local Association for this Presentation and Annual General Meeting.

Hear an update from the people leading the Wynyard Edge Alliance delivery of infrastructure for the 36th America's Cup. The Wynyard Edge Alliance was established by the Crown and Auckland Council in partnership with mana whenua and Emirates team New Zealand to enable Tāmaki Makaurau, Auckland and New Zealand to host the 36th America's Cup in 2021. The focus is to ensure the essential infrastructure is provided on time and that the America's Cup event takes place safely while show casing Tāmaki Makaurau Auckland and New Zealand to the world. The Alliance has currently completed 7 of 13 milestones on time, including 5 'stages' (building platforms) made available for syndicates to build their bases. Progress continues safely and at pace with a further 6 milestones on track to be passed this year. The Wynyard Edge Alliance comprises Auckland council, the Crown, McConnell Dowell, Downer, Tonkin & Taylor and Beca.

ANDREW ROSE, Alliance Project Director, Wynyard Edge Alliance

Andrew is an accomplished engineering management professional with 37 years' experience. The last 18 years leading NZTA's Major Rooding Infrastructure projects in New Zealand. Andrew is experienced in Pure Alliance, Competitive Alliance, D&C, ECI, Measure and value form of contracts. A highlight on working with the Alliance delivery model was winning the Triple A – Australasian Alliancing Association Team of Excellence award for the Manukau Harbour Crossing, NZ's first and ground-breaking Competitive Alliance. Andrew is thrilled to be leading Wynyard Edge Alliance delivering Infrastructure for the 36th America's cup.

KURT GRANT, Construction Manager, Wynyard Edge Alliance

Originally from the USA, Kurt recently relocated to New Zealand working for McConnell Dowell starting first in Christchurch, with the last two years fully engaged in the delivery of the AC36 project. Kurt started the project in the interview stage and has worked through the Team assembly, consenting, design, optimization and then construction phases on the way to delivering this challenging project. Kurt has worked in seven countries delivering heavy marine and metro tunnelling projects in the project manager or construction manager roles.

WILL INGLE, Design Manager, Wynyard Edge Alliance

Will is a Civil Engineer with over ten years' experience working for multidisciplinary engineering consultancies on the design of building and infrastructure projects. Originally from the UK, Will moved to New Zealand in 2016 to join Beca's Coastal and Marine team. Prior to this Will worked for consultancies in the UK and Malaysia. Will has been involved in the design of the 36th Americas Cup infrastructure project since the initial planning stages and is currently the Design Manager for the Wynyard Edge Alliance.
