Background Information

AC36 Presentation

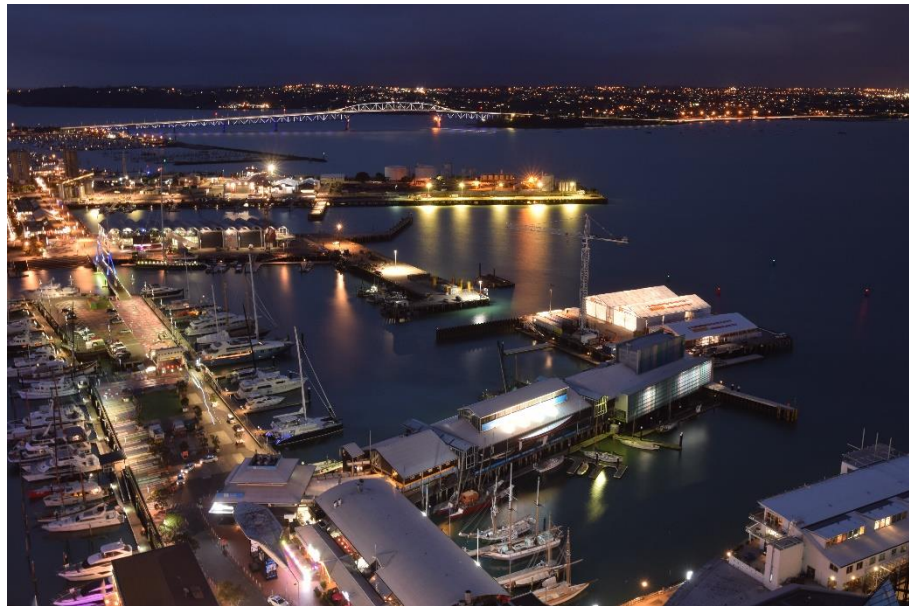

The Wynyard Edge Alliance was formed to construct the infrastructure for the 36th Americas Cup event here in Auckland.

A non-negotiable set of milestones, a challenging stakeholder environment, a fixed budget and a tight labour market...what could go wrong??

Find out how the WEA Team pulled off one of Auckland's most successful alliances.

Kurt Grant

Kurt has been managing challenging construction projects around the world for the last 35 years, spending the last 3 years here in New Zealand working for McConnell Dowell. He has worked with the Wynyard Edge Alliance since its inception holding the position of Construction Manager for much of the construction work and he has now taken over as Alliance Project Director to close out this challenging project.

Construction Sector Accord

Stephen will provide a much awaited update on the Construction Sector Accord which is a joint commitment between government and the construction industry to transform the construction sector for a better New Zealand. He will also provide a look forward to what's coming up for the Accord, the effect of the election and discuss the evolution of Beacon awards.

Stephen Greenhough

Stephen is a Senior Construction Procurement Leader within the recently established advisory team focused on construction within MBIE. The Construction Procurement Advisory team supports the work of the Construction Accord to transform the industry, with a specific focus on using government projects to help move the industry in the right direction. Stephen has over 25 years of experience as a construction and property executive having worked in all aspects of the supply chain.
