

NZ Upgrade Programme

National Construction Clients Group conference
6-7 May 2021

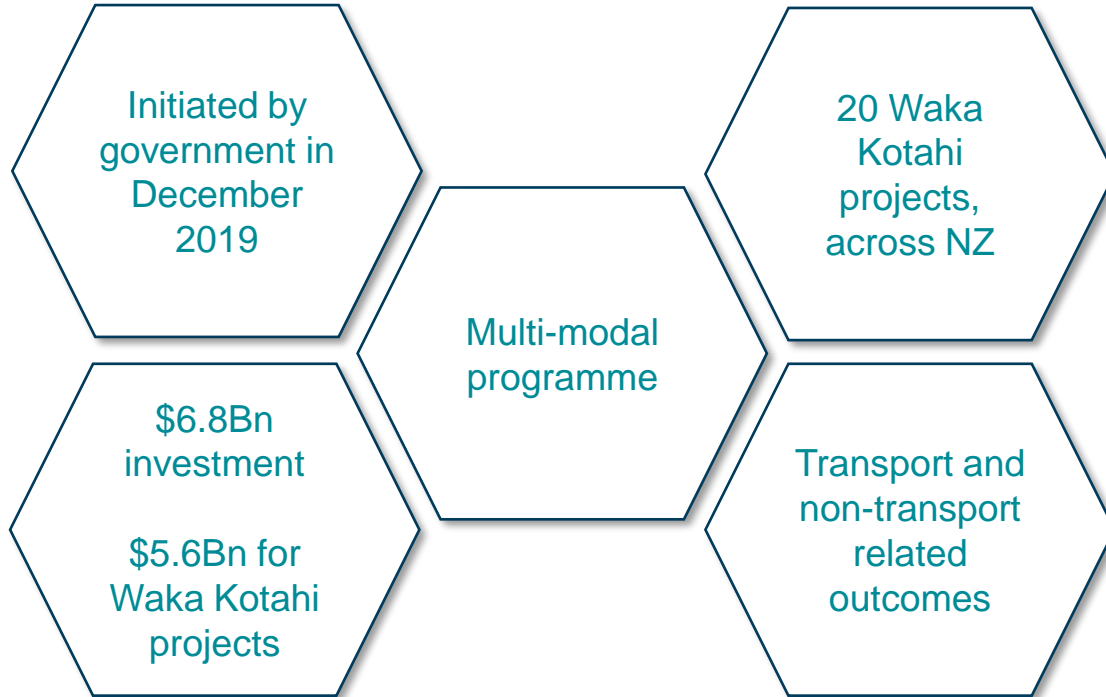

NZ Upgrade Programme

Today's presentation

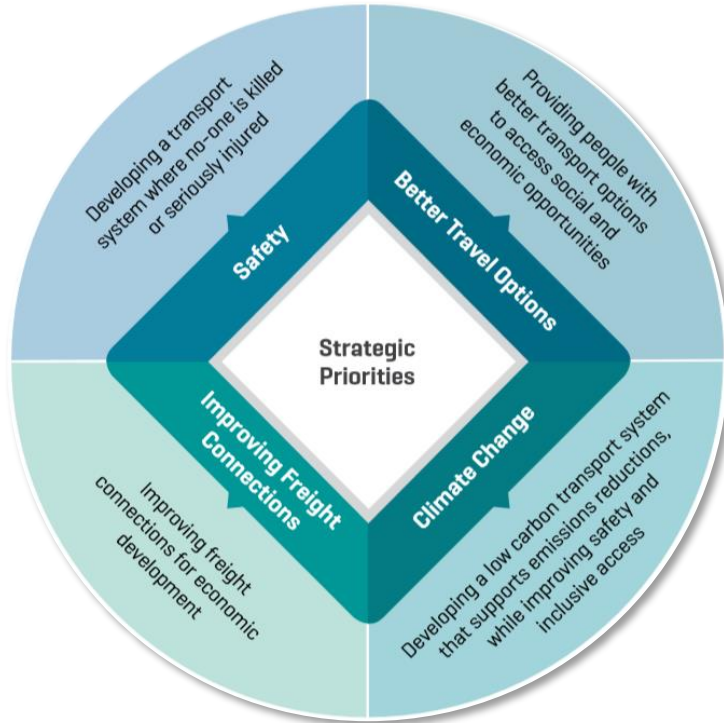

- NZ Upgrade Programme context
- Our collective opportunity for change
- Discussion and questions

NZ Upgrade Programme - context

Programme outcomes

A multi-modal programme

Special purpose lanes –
public transport, multiple
occupant, freight

Significant
walking and cycling
investment

A pipeline of work and jobs

A pipeline of work for
the construction
industry

About 3800 job
opportunities – direct
& supply chain

More than 800 already
working on the
programme

Our collective opportunity

Driving innovation through delivery

Making health, safety and wellbeing a priority in all areas of the Programme

Greater Programme-wide delivery efficiencies

Better social, economic and environmental outcomes

Health, Safety and Wellbeing

Visible
leadership

Collaboratively
eliminate risk

People-
centred,
positive
workplaces

Delivery Efficiency

Focus on
delivering our
defined
outcomes

Driving new
methods and
practices

Leaders in
transparent
risk
management

Social, economic and environmental outcomes

Protect and
enhance our
environments

Develop skills
and build
diversity in the
workforce

True
partnerships
for positive
social legacies

PROUDLY DELIVERING

New Zealand
Upgrade
Programme

Examples of projects

- New technology – digital engineering, virtual reality simulation
- Whole of life considerations

- Alternative working hours/full road closures
- Reward consistency and succession planning

- Property acquisition mediation service
- Improve risk identification and allocation

Examples of projects

- Require projects to identify opportunities for environmental enhancements
- Embed the ISCA sustainability rating tool

- MSD employment partnership
- Involve the community in planning and design

- Support iwi partnership in project decision making
- Require a good neighbour strategy

Principles for
change
Being prepared
to give it a go

**Supporting
Implementation**
New
requirements
