The Construction Clients' Protocols

Developed by our members to enable **Clients to take ownership** by:

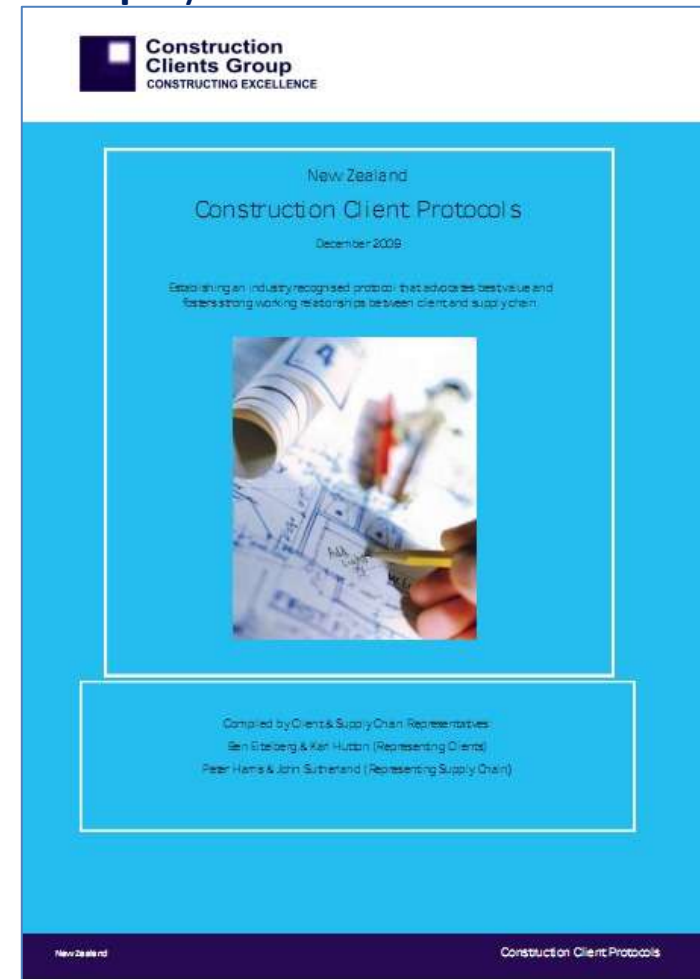

1. Adopting best practice
2. Effective leadership
3. Developing collaborative working relationships

Leadership

1. Clear vision
2. Effective decision making
3. Right project structure
4. Commitment to Best Value

Best Value

1. Using procurement strategies driven by value
2. Commitment to people (inc H&S)
3. Commitment to quality (inc Sustainability)

Procurement & Integration

- Transparency in procurement decision making
- Early Contractor Involvement
- Integration & Collaborative Working arrangements
- Clear lines of responsibility & accountability
- Non-adversarial ways of working
- Selection on best value NOT lowest cost
- Quality based assessment of all supply chain links
- Fair payment policies
- Use of risk management principles
- Fair employment practices

Interactive Working Group: Session 1

- integrating the team & collaborative working
- enabling better decision making & non-price attributes
- managing risk & rewarding innovation
